EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment to the claims was given in a telephone interview with Michael Moffatt (39,304) on October 12, 2004.

3. The application has been amended as follows:

In the claims: CLAIM 14, LINE 2: changed "locus of position data" to

--positional data--;

CLAIM 15, LINE 2: changed "locus of position data" to

--positional data--;

CANCELED CLAIMS 18-20.

In the specification: After the title, line 2 of the Continuation data, deleted "now

U.S. Patent No. _____,".

4. The changes made to the claims correct antecedent problems. The change to the Continuation data was made because the related application has been allowed, but has not yet issued.

5. The following is an examiner's statement of reasons for allowance:

Claims 9-17 and 21-23 are distinguishable over the prior art. As per claim 9, the prior art of record does not show or reasonably suggest, in combination with the other claimed subject matter, a GPS navigation apparatus which includes a route conversion selector for

selecting a conversion type from among a plurality of conversion types (i.e., time series or shortest route) and converting a selected locus of tracking points into a new route whereby the new route is dependent on the conversion type, and a position data extractor for automatically extracting those data from the selected locus of tracking points designated by the selected conversion type and creating the new route. Dependent claims 10-17 and 21-23 are distinguishable for at least the same reasons.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited documents include those documents cited in the parent application (copies not provided) and documents related to determining return routes which are of general interest.
